

lost their power and influence, to a very great extent.

I am aware that it is a difficult matter to get an honest history of Mahometanism translated into any of the Christian languages. One of the best works I ever read upon the subject, and one I can put the most confidence in, is Simon Ockley's History of the Saracens; it was a translation of a Mahometan historian named Abu Abdollah Mahommed Ebu Omar Al Wakidi, who wrote eighty years after the flight of Mahomet from Mecca. Ockley prided himself in rendering the Arabic in good style, although his religious prejudices were so strong that he durst not render the sentiments he translated in full force, without rather blinding them a little. He would frequently translate as it ought to be, as nigh as he could, and then stick down a note in the margin, and say, "That was only done out of hypocrisy. He is one of the best authors, or the one I would rather read.

It is a hard matter, as I have said, to get an honest history of any nation or people by their enemies. For instance, read Governor Ford's History of Illinois, and you will find that he will contradict himself half-a-dozen times in one statement, for fear that he will not flatter the prejudices the people had against the "Mormons." He would in one place assert that he had never done anything to favor the Anti-Mormons, and then immediately afterwards declare that he could not see why the Anti-Mormons could have any feelings against him, when he had done so much for them; and then go on to enumerate how he prevented Backenstos from arresting the house burners; yet he declares he had never done anything to favor them, and wonders why that party should feel crossways to him. This is the temper of almost all men who undertake to write the history of their enemies.

Just read the reports of different generals on the battlefields of the Crimea, and you will see that every one has a different side to it. These reports have got to be received with great allowance all round.

All the Christian translations of Mahometan history, as well as of the Koran, should be received with a great deal of allowance. I would recommend the reading of Major David Price's "History of the Mahometan Empire." He was educated and trained to be a Church of England man, but had not many conscientious scruples on religion; still he had prejudices against the Mahometans, so that when you read it, you must throw your ear a little quartering. I consider Bush's "Life of Mahomet" written under the influence of a violent Christian prejudice. I would prefer the account in Crichton's "Arabia" to Bush.

I would like to inspire in the minds of the youth a disposition to study oriental history, because a great deal of human nature is learned therein: how powerful dominions grew up in a short time, and how, through the violation of the principles of union, those nations have as quickly come to naught. Many useful lessons are taught on the pages of history.

Within the last eighty years our own republican government has increased its territorial limits about threefold, and it is constantly on the increase.

The fact is, if a man who is in the habit of raising trees makes his top to grow larger in proportion to the roots and the main trunk of the tree, it will break asunder or be uprooted. The American power is in danger of losing its balance by extending its limits faster than it accumulates strength to consolidate them together.

I will explain one term which I have used. At the time that Mahomet fled from Mecca (July 15, 622),
