

men who will break the crust of nations, gather Israel, and send the truth to every clime. May we accomplish the great work thou didst commence through thy servant Joseph, that truth may reign on the earth, and righteousness predominate among all people. May we have power over the wicked nations, that Zion may be the seat of government for the universe,

the law of God be extended, and the scepter of righteousness swayed over this wide world; and eventually, with the redeemed, may we be brought to celebrate thy praise, in thy kingdom and presence. These favors, and all we need to prepare us to live here, to dwell with thee and the sanctified hereafter, we humbly crave, in the name of Jesus Christ, Amen.

**A VISIT, BY P. P. PRATT, TO THE SOUTHERN
SETTLEMENTS—THE POWER OF THE
PRIESTHOOD—UNION AMONG THE SAINTS—A MIRACLE.**

A DISCOURSE BY ELDER PARLEY P. PRATT, DELIVERED IN THE BOWERY, GREAT SALT
LAKE CITY, JUNE 29, 1856.

REPORTED BY J. V. LONG.

Brethren and Sisters—It is with no ordinary feelings of joy and thanksgiving that I have the privilege of again standing before you, in a good degree of health.

I have been absent some five weeks, on a mission through the southern settlements. Many of you will remember that I had been very low with sickness previous to my departure, and I thank God this day that I have, in a great measure, recovered my health and strength.

I have had a good visit among the Saints throughout the south, from here to Washington county, distance 300 miles. The hot weather, prevailing south winds, and the dust, rendered our traveling somewhat disagreeable and fatiguing; nevertheless, I have enjoyed myself well.

The Saints among whom we have labored received us with hospitality, the best they were capable of; they could have done no better if angels

from heaven had visited them; and I feel to bless them for it.

I will say a word about the crops and the industry of the people south, as I presume you are all anxious on that subject. I know of no particular drawback in any large portion of the settlements in the way of good crops.

They are later in the south than here, the climate being a little colder; but in every settlement a peculiar spirit of industry characterizes the Saints; they seem to strain every nerve to put in crops and to take care of them, and with some few exceptions in small places, there is every prospect of good crops, good gardens, and good grain, and I hope, with the blessing of the Lord, that the people in these distant regions will be able to produce sufficient for themselves and those who are coming this season, and I think the most of them will take care of it.
