

their faith never produced watermelons, squashes, cucumbers, nor anything else. Now, works will produce faith, and works will produce good trees and good fruit.

We dedicate and consecrate the wine or water that we partake of in the sacrament, and we also dedicate the bread to the Lord; and it should be just so with everything: it should all be dedicated to the Lord; and upon all that we do and put our hands unto, we should ask his blessings. We should never meddle with anything on this earth that we cannot lay our hands upon and bless and dedicate and consecrate to the Lord, that it may be for the accomplishment of what it is designed, and produce the very effects that we desire.

I could talk about a great many simple things of this kind, but you laugh. When I talk about such things as cucumbers and watermelons, many laugh, and I hate to be laughed at when I am telling the honest truth and speaking of the simple things of the kingdom of God.

Bless you, this world was made out of small things. I was small, indeed, when I was in the loins of my father Adam; I must have been very small, and so must you, for you were all there: but here I am, a grown man, and, perhaps, nearly as large as Father Adam was. Perhaps I am not so large: I may have become degenerated; but be that as it may, I know that I am here.

Brethren, go and dedicate your gardens, and when you get a tree that you want to set out, dedicate the ground, the root, and the elements that you are going to place around it, and ask God to fill it with warmth and with power to vegetate. Dedicate the seed that you are going to put into the earth, and then dedicate the earth, and nourish it when it springs forth, especially in a cold soil; and do not say that it cannot be quickened,

for I say it can. There can be substances such as bones, ashes, lime, old hats, and old boots and shoes, and everything that you can get into it will tend to quicken it; and why will this be the case? Because you have asked God to bless it, and because you have put works with your faith. By pursuing this course, you can produce apples and peaches on the low as well as on the high lands. Do I believe that the character and course of this people will cause the earth to produce things that require a warm climate? Yes—the earth will be like the people who inhabit it; and it is the duty of us all to go to work and practice accordingly.

Can you produce flax in this country? Can you produce it, unless you go to work and put in the seed? Can you produce wheat, unless you plough the land, put in the seed, and then irrigate it? Do I believe that this land will produce cotton? Yes, just as well as the land down in the southern country: God can change the climate for the benefit and salvation of his Saints.

There never was an ear of corn raised here till we came, and nobody would believe that we could raise any. Bridger offered brother Brigham a thousand dollars for an ear of corn raised in the valley. The mountaineers had not confidence enough in God to put the seed into the earth; but we have almost produced anything that we have tried, and there has been cotton raised up north in this valley. Bless you, it is colder up north than it is here. Can we raise madder here? Yes, every one can raise it in their gardens, and it can be raised as easily as your beds of flowers. I cannot remember the names of them; but it can be raised upon the same principle that your flowers are raised; and so can silk, only the tree is first raised, and the worm eats the leaves of the tree, and then produces the silk.
