

**CALL FOR TEAMS TO GO TO THE  
FRONTIERS—ENCOURAGEMENT OF HOME  
MANUFACTURES.**

REMARKS BY PRESIDENT BRIGHAM YOUNG, MADE IN THE TABERNACLE, GREAT SALT  
LAKE CITY, FEBRUARY 2, 1862.

REPORTED BY G. D. WATT.

I have a few items of business that I wish to lay before you this morning, and the first is a call upon the brethren for teams to haul the granite blocks from Little Cottonwood to the Temple Block. The road became so muddy that the teams were sent home, but we understand that the road is now very good. This county, Davis, Tooele, and the northern part of Utah counties can forward teams in a day or two, and if the road again becomes bad, they are not so far from their homes but what they can easily return. I wish to have all the teams that can be gathered from this city and the adjoining neighborhoods and Wards go to work immediately, so that our stonecutters may have constant work. Some of them are from a distance, and we do not like to have them out of work through want of rough blocks. It requires a large quantity of rock for the first story of the Temple, and we would like to complete the walls of that story, and as much more as possible during the present season.

I have another call to make upon the people now, which I wish to go out from this place. You will recollect that a year ago this coming spring we sent some two hundred teams to the Frontiers to bring the Saints to this Territory. We wish to send three hundred this year, and they are as few as will answer to accomplish the purpose. Last season I think there were rising of sixty teams went from this city. I shall

propose that we make the dividend as we did last year, and let this city take the lead; and if we are not over one quarter in number, we ought to be in faith and good works. We know that the people in this city and in the regions round about are wealthy in cattle, and you know very well that it is against my doctrine and feelings for men to scrape together the wealth of the world and let it waste and do no good. We have more stock than we well take care of. We want to send some twelve hundred yoke of cattle to the States for freight and people, and we want to send some cattle to sell and purchase things that are needed for families when crossing the Plains, for we wish to bring all the poor that can get to the Frontiers in time to come on this season.

Now I have a particular request to make of all our capitalists, and that is, for them to send and procure machinery to aid in supplying all our reasonable wants in manufactured articles, that we may have everything within ourselves for houses, for goods, for chattels, for chariots, for ribbons, and for ruffles, yes, everything that we require to clothe ourselves with from the stockings on our feet to the articles worn on our heads. You who have money and other available means, send and get such machinery as is really necessary for manufacturing those things that we require to make us comfortable. It is our duty to do this, and it is not your duty neither is it mine to send
