First and foremost, brethren and sisters, I will say that, on Thursday evening I arrived in this city from the south—from my field of labor. As I came near the borders of the city I came in contact with a very disagreeable smell, arising from the decomposition of some animal that had been hauled out on the outside to remove the nuisance from the city. When I passed a certain line I entered the city and beheld shady trees and fruit trees laden with fruit, and experienced with delight the agreeable odor from the ripening fruit. The contrast was as agreeable as it was great. It immediately occurred to my mind that our brethren who are crossing the plains might come in contact with dead bodies that had been removed from among the Saints, I mean dead as to the spiritual life of God in them, for they must of necessity come in contact with these ere they could reach the city of the Saints. I believe that the evil things that could be said of the Saints are said around the borders, and those that are coming here to find a home have these things to encounter, that are quite disagreeable, and it requires not a little perseverance and faith to force their way through and to arrive here untarnished by the evil that meets them on the way. But when they can come with the Spirit of the Lord—with the spirit of the Saints in them—they forget all those disagreeable things on the borders, and their minds are charged with a heavenly influence, when they find themselves among the Saints here in peace and in truth.

Five years ago, the 10th of last June, I left this city to bestow my labors in another part of the heritage of our God, in the county generally known as that of Sanpete. At the time I went there, there were six efficient settlements, the largest of which would not exceed 125 or 130 families. According to the ability which the Lord has given me, in connection with my brethren who have been laboring more or less with me, the industry of the Saints, and the blessings of the Lord, the settlements have now increased to fifteen in number. They advanced southward until it was deemed expedient and necessary in the Legislature of last winter to organize two new counties, namely, the Sevier County and Piute County. The land in these counties that is susceptible of cultivation is mostly occupied with settlements, which, in several places in these new counties, are quite large.

We have had some difficulties to encounter, and all those who are acquainted with the establishment of new settlements in new localities, are not ignorant that there is always more or less difficulty to contend with; especially when they are so remote from what may be termed headquarters, or from the sources of aid and succor. We have enjoyed, generally, very good health; we have had some little sickness among children, and several have died.

There is a good deal of ambition among our people to cultivate a great quantity of ground, the result of which is, that we cultivate our lands poorly in comparison to what we would if we were contented with a smaller area, and would confine our labors to it. We have found some difficulty with regard to water, and complaints have been made about a scarcity of water in many places, when, indeed, I suppose the Lord has apportioned the water to the amount of land he intended should be cultivated. I do not think that these things are passed over unnoticed by Him without some kind of arrangement or calculation. He understands perfectly well what the elements are capable of producing, and how many of His people may be established
