REMARKS BY PRESIDENT BRIGHAM YOUNG, MADE IN THE BOWERY,
 GREAT SALT LAKE CITY, NOV. 6, 1864

It is the business of the Latter-day Saints to build up the Kingdom of God upon the earth, and by doing this they will be built up, as individuals and as a community. It is good to love and serve our God with an undivided heart and with a pure affection, making it the business of our lives to work righteousness, and to introduce everywhere in all the earth the Gospel of glad tidings and everlasting peace, to prepare the way for the coming of the Son of man to receive his bride. To hold communion with our Father and God, and to carry out his great designs in this last dispensation, ought to be sought after through every transaction of our lives, for no man, or community of men, can possibly serve God acceptably a portion of their time only, and themselves the remainder. If we are the servants and handmaidens of the Almighty at all, we are so every moment of our lives. It should be our constant desire and wish to know how to build up the Kingdom of God, and of necessity this Work calls forth an almost endless variety of talent, skill and labor.

In building the great and notable cities of the world, it required the genius of the architect, and the skill and labor of the artisan, in all their variety. In building up the cities of Zion, and an earthly kingdom unto

God, it will require all the wisdom and skill and cunning workmanship that are displayed in the arts and sciences now known to man, and revelation from heaven for still further advancement in the knowledge of every handicraft and means of adornment, to beautify the cities and temples that will be built by the people of God in these last days. We expect to see the time when we shall not be at all inferior to any of the nations of the earth, in the production of works of art and in scientific skill and knowledge; even now there is incorporated within the pale of the Church of Jesus Christ of Latter-day Saints, mechanical ingenuity that is equal to any to be found among the civilized nations of the world; and as our community grows in wealth and importance, and raw material sufficient is accumulated, and our necessities and wants increase, all this artistic skill and genius, which at present lies dormant, will be called into active use, for the bone, sinew, and knowledge are here. Our first great object in life is to build up the Kingdom of God. If it is to sow wheat to sustain the people, be it so; our families want bread, as do also the families of the Elders who have gone abroad to preach the Gospel, and our mechanics; we are also under the necessity of producing many other articles of
