## EDUCATION—EMPLOYMENT OF FEMALES

REMARKS BY PRESIDENT BRIGHAM YOUNG, DELIVERED IN THE BOWERY,

GREAT SALT LAKE CITY, APRIL 8, 1867

Reported by David W. Evans

A few words to the Latter-day Saints, and especially to our young men. We have a great deal of time to spare over and above going to the canyon, and working in the fields and in our shops. It is true this is not exactly the time of year to establish evening schools and lyceums, but we wish our young men to make preparation this summer, and send east to procure the necessary articles for the formation of societies in this and other cities throughout the Territory for the purpose of studying the arts and sciences. Now, if a man in the North, say sixty-eight or a hundred miles away, should have a limb broken, he has to send to this city for a surgeon. It is all folly; there is no more real necessity for it, if men would devote their time to the study of such things, than there is to send for a man to put a rafter or joint on his house, or a panel into his door.

As the subject of education is open, and has been from time to time during this Conference, I will now urge it upon the people—the young men and the middle-aged—to get up

schools and study. If they are disposed to study physic or surgery, all right; they will know then what to do if a person is sickly, or has his elbow, wrist, or shoulder put out of joint, or his arm or any other bone broken. It is just as easy to learn such things as it is to learn to plant potatoes. I would like to urge these matters upon our young men, and I am convinced this meets the feelings of all the brethren. I do hope, and pray you, my brethren and sisters, to be careful to observe what br. Wells has said in regard to introducing into our schools the Bible, Book of Mormon, Doctrine and Covenants, and the Standard works of the Church, and all the works pertaining to our faith, that our children may become acquainted with its principles, and that our young men, when they go out to preach, may not be so ignorant as they have been hitherto. I would like very much to urge upon our young people, the sisters as well as the brethren, to pay more attention to arithmetic and other things that are useful, instead of acquiring a little
