

**COMPREHENSIVENESS OF THE LATTER-DAY WORK.**

REMARKS BY ELDER WILFORD WOODRUFF, DELIVERED IN THE NEW TABERNACLE, SALT LAKE CITY, APRIL 8, 1872.

REPORTED BY DAVID W. EVANS.

We have had a very good Conference; we have heard a great deal of testimony from the servants of the Lord, and that testimony has been true. The building up of the Zion of God in these latter days includes, I may say of a truth, every branch of business, both temporal and spiritual, in which we are engaged. We cannot touch upon any subject which is lawful in the sight of God and man, that is not embraced in our religion. The Gospel of Jesus Christ which we have embraced, and which we preach, includes all truth, and every lawful calling and occupation of man. One subject that we are deeply interested in I wish to say a few words upon. In the first place I wish to give notice in this stage of my remarks to the members of the Deseret Agricultural and Manufacturing Society, that they are requested to meet, at the close of this meeting, at the Historian's Office, to appoint their president and board of directors for the coming season, for the times demand that we should hold a State fair in this city this fall.

Strangers may think this a very strange subject to present in a religious meeting, but we are building up the literal kingdom of God on the earth, and we have temporal duties to perform. We inhabit temporal bodies, we eat temporal food, we

build temporal houses, we raise temporal cattle and temporal wheat; we contend with temporal weeds, and with temporal enemies in our soil, and these things naturally give rise to the necessity of attending to and performing many duties of a temporal and arduous nature, and they, of course, are embraced in our religion. In building up the Zion and kingdom of God in these latter days, our agricultural and manufacturing interests are of the most vital importance; in fact manufacturing and agricultural pursuits are of vital importance to any nation under heaven. Show me a nation whose people cultivate the earth, and manufacture what they need, and I will show you a rich and independent nation. Show me a nation that lives entirely by mining and I will show you a poor nation—one that is ready to run out and become obsolete. You see this manifest in the history of all nations under heaven. What gives England her wealth today? Her coal, iron, and the products of her soil, in connection with her prodigious manufactures; and it is so with all the nations of the earth. What makes the United States what she is today? Her products and the cultivation of her soil, and the constant efforts she has made to supply the wants of her people. Not but what
