

an accommodation to the travel from here to Soda Springs. Get the railroad graded as far and as fast as possible to carry us on. We would like very much to hold some meetings north, and we would rather get into a car and go where we wish than to be traveling along through the dust day after day, consequently we wish to hurry up this matter as speedily as possible. The arrangements will be entered into by those who have the railroad in charge, but I thought I would ask the brethren, inasmuch as they wish to travel north, occasionally, to do themselves and the rest of us the kindness to get a ride upon a pretty good track. We wish to go to Bear Lake Valley, over into Rich County, but how shall we go? I understand that this road up the Logan is impassable, and that the dugway road is very bad. We have some settlements already on the Soda Springs route, and shall probably have more, and if we could have the accommodation of traveling on a pretty fair level road we should be very thankful. I shall leave this and other matters with you, but I would urge the necessity of building the railroad as far north as the iron can be obtained. I understand there is enough now coming to go from here to Franklin, and perhaps a few miles beyond. When this is completed, the traveling and freighting to the north will probably go over this line, and the business of the people here will be increased and the value of the property will be enhanced, and you will advance in proportion to the abundance of your improvement.

Another item which I wish to urge upon the people is the building of this meeting-house. We have a bowery here, which is very comfortable to meet in this warm wea-

ther, but when it is windy, stormy, cold or wet, the people should certainly have a house to meet in, instead of being out of doors. This, of course, will require labor. If we were to go into details with regard to labor I think we could show very clearly that the time that is given to us here is not altogether well spent. We might make a great many improvements to benefit ourselves, and be none the poorer, but it would increase our wealth. I think this is apparent to every reflecting mind. Every improvement that we make not only adds to our comfort but to our wealth. I wish the brethren to consider this. Not that I wish to take anything from the minds of the people of the good things that we have heard since we have been together, and especially from brother Taylor, who has just spoken. I would not like to take a thought or reflection from the minds of the people concerning those good things pertaining to the kingdom of God. But recollect that brother Taylor, in his remarks, brought the spiritual and the temporal together. They always have been and always will be together, and by our labor we show to the heavens that we are willing and obedient servants and handmaids. This gives us a claim to the blessings which our Father in heaven delights to bestow upon the faithful. By our works our faith is made manifest, and by them shall we be judged, and justified or condemned. Then let our works be such as will justify us and tend to the building up of the kingdom of heaven upon the earth. If we do this, brethren and sisters, we shall prosper and increase.

We were talking yesterday about the blessings of the people. It appears to me that they have little idea of the blessings which are in
