their labors to the great end of becoming of one heart and one mind in the Lord, of establishing Zion and being filled with the power of God? It would be to stop expending and lavishing upon our dear selves all needless adornments and to stop purchasing the importations of Babylon. We can ourselves produce everything necessary for our consumption, our wear, our convenience and comfort, right here at home. We can produce and manufacture the material necessary to beautify our lands, gardens and orchards; to beautify and furnish our houses, and to adorn the beautiful bodies which we inhabit without sending our means to France, to England and other countries for things which can a little better be made at home among ourselves. The material of which these cushions were made, which adorn the pulpits, were produced here. After it was taken from the sheep, it was manufactured at our Provo factory into the cloth you now see; and the material of which the silk trimmings were made, was raised, spun, and made up by some of our sisters in this Territory. We might exhibit to you handkerchiefs, dress patterns, and shawls, all of silk, made by our sisters out of the raw material produced here through the enterprise and industry of a few. These are only simple specimens of what can be done. Suppose I were to say, "Ladies, how do you like them?" Do you not think they would say, "Pretty well?" We can improve on what has been done, and we want you to do so. Plant out the mulberry tree, and raise the silk, and let your dresses, your shawls, your bonnets and your ribbons, and everything you use to clothe and adorn your bodies, be the workmanship of your own hands. Let the brethren take hold and carry out in every department the same principle of home manufacture until we shall be able to produce the materials, and make up every article necessary to clothe and adorn the body, from the crown of the head to the soles of the feet. Then we shall become a self-sustaining and growing people, and we shall have to do it. All this is in the elements in which we live, and we need the skill to utilize the elements to our growth and wealth, and this is true financiering.

We can now see the growth of the Latter-day Saints, and it is marvelous to us to see the multitude of little towns springing up here and there, and we are under the necessity of saying, Give us more room, for the older settlements are thickening up, and the people are spreading out and filling up new valleys continually. You can see the shoots putting forth and taking root; still the old stock is good, is alive and rapidly increasing.

It has been asked if we intend to settle more valleys. Why certainly we expect to fill the next valley and then the next, and the next, and so on. It has been the cry of late, through the columns of the newspapers, that the "Mormons" are going into Mexico! That is quite right, we calculate to go there. Are we going back to Jackson County? Yes. When? As soon as the way opens up. Are we all going? O no! Of course not. The country is not large enough to hold our present numbers. When we do return there, will there be any less remaining in these mountains than we number today? No, there may be a hundred then for every single one that there is now. It is folly in men to suppose that we are going to break up
