

may arise, which is proper among all wise and intelligent men, that then the profits of the institution outside of this, should be appropriated for the development of the home manufactures, the making of machinery, the introduction of self-sustaining principles and the building up of the Territory generally, and they acquiesced in this feeling; and I say it to their honor and credit. And I will tell you again that the Church has got a large interest in that institution, consequently we wish to see everything go aright, not on any wild erratic principle, but on a solid, firm, reliable basis, that can be carried out and that will elicit the admiration and confidence of all good and honorable men.

Sometimes little difficulties have arisen outside through interested individuals who have resorted to a good deal of trickery; other times perhaps from just causes. And I will say too that complaints have been made that we have not sufficiently sustained our home manufactures. I will say however that the Institution has stood in a very delicate position. We have been struggling with the financial crisis that has cast a gloom over all this nation for the last number of years—since 1873. But we are now getting into a solid, firm position, and when we declared 3 percent for the six months dividend, it was because the Institution was able to do so. And when we are able to extend this a little farther we will be quite willing to do so.

Some of the complaints that have been made against the institution we have heard; and we have thought best to have a board and refer to that board any complaints that might be made from any part of the Territory. This board that has been temporarily organized has given us

these various reports which have been read in your hearing, which indicate their views and feelings in regard to these things. We wish a board of that kind to be organized upon a correct basis according to the order of this Church and Kingdom of God; and then as the people throughout the Territory send to purchase their goods from them, let the people that make these purchases be represented; and if there is anything not straight in their operations let them be made straight. And this is what this committee is for, that the people may be protected as well as the Institution.

Then Stake organizations are recommended, with a representative from each Stake at the general or central board, and it will make it much more pleasant for the management of that Institution to have a criticism of that kind. And it will also tend to allay many of these foolish things which are frequently put in circulation in different parts of the Territory. The object then, of this Board is that the people may be represented, and that Zion's Cooperative may also be properly represented, that it may serve as a balance wheel to adjust and correct any matters of difficulty that may arise.

I am happy to say that in many parts of the Territory they are introducing the manufacture of leather and boots and shoes and a variety of other articles. And suffice it to say that, according to these reports, the Parent Institution has sustained the manufacturers of these homemade articles quite liberally; and we want it to be in that position that everything we use can be bought there. This is, too, the feeling in relation to this matter. And when we get things into a proper fix we will pull with a long pull and a strong pull
